

Geographical Section, General Staff, No 258
 Published by the War Office, 1942.
 8,000/12/48 Ch.

- Reference**
- Names of Mountains and Hill Ranges — VATAJÖKULL
 - Peaks with altitude in metres — 5m/1643
 - County boundaries
 - Scale of 1st importance
 - Scale of 2nd importance
 - Village
 - Hamlet
 - Contours surveyed
 - Perennial Lines on Glaciers

- Roads, fair
 - Roads, poor
 - Brille paths
 - Telegraphs along roads
 - not along roads
 - Rivers and Streams
 - Marsh and Meadowland
 - Sand or Gravel
- Annual change about 10°30' Easterly.

Contours at 100 and 200 metres
 and above at 300 metres interval.
 Contours within the permanent snow
 area and across glaciers are shown in blue.

Scale 1:1,000,000
 1 Inch = 57.8 Miles or 1.014 Inches = 16 Miles
 1 Millimetre = 1 Kilometre

In all cases the Icelandic letters 's' and 'þ' have been transliterated
 on this map as 'sh' and 'th' respectively.
 Place names on this map are not necessarily spelt as in the handbook.

HEIGHTS IN METRES

METHOD OF GIVING A POSITION REFERENCE ON THIS SHEET.
 First give the code letters denoting the exact degree of latitude and longitude immediately to the South and West of the required point. Then give in figures the distance in minutes of latitude and in minutes of longitude of the point from the degree intersection so described. Thus if 50° N. is represented by AB and 23° W. by XY then the position 50° 05' N., 22° 35' W. will be denoted ABXY 0527. Similarly if 50° N. is represented by AB and 2° E. is represented by PQ then the position 50° 17' N., 5° 38' E. is ABPQ 1738.
