## Preface

The present volume contains most of the papers presented at the III-rd Polish-Finnish Symposium on "Methodology and Applications of Decision Support Systems", held at Gdańsk-Sobieszewo on 26-29 September 1988.

This Symposium was organized by the Systems Research Institute of the Polish Academy of Sciences. It was attended by 8 Finnish scientists and 18 representatives of the Polish scientific institutions.

The program of the Symposium was organized around the following main topics:

- a. Decision Support Systems for Management,
- b. Applications of Information Technology,
- c. Mathematical Tools for Planning and Decision Making,
- d. Negotiations and Bargaining Methods,
- e. Uncertainty and Imprecision in Decision Models.

The papers presented are published here in the alphabetical order of authors.

I hope that the present publication will contribute to further development of Polish-Finnish scientific cooperation.

It is my pleasant duty to acknowledge the help of the Conference Secretary dr. Andrzej Stachurski in organization of the Conference and preparation of the Conference contributions.

Warsaw, June 1989
