forests of the Mazovian Lowland**

Abstract. Studies of the fauna of linden-oak-hornbeam forests in the vicinity of Warsaw. Stenotaxic agromyzids and thermophilous *Strigamia acuminata* plant associations of forest habitats.

**Part 2**

The literature have been summarized. *Chilopoda* of the (SATYANOFF 1950) works concerned with particular species. A description of the area of the Mazovian Lowland, only more detailed. Kaczmarska (1963) provides more works dealing
