INSTRUCTION TO CONTRIBUTORS (short form)*

1. Editorial Policy

The *Polish Journal of Chemistry* publishes **review articles, original papers, communications and book reviews**. Contributions are published in English. Submission of a manuscript to the Journal implies that the work reported therein has not received prior publication and is not under consideration for publication elsewhere. All papers are submitted to Referees, but ***Authors must accept full responsibility for the factual accuracy of their data and their views***. Referees' remarks are forwarded to Authors for consideration. Galley proofs will be sent to Authors for correction; it is requested that Authors read their proofs and return them to the Editor within 48 hours of receipt. It is stressed that ***the Author alone is responsible for the correction of the proofs***.

2. Preparation of Manuscripts

The Authors should first examine a current issue of the *Polish Journal of Chemistry* for guidance with respect to format, style and presentation of the manuscript.

Two copies of the manuscript should be submitted directly to the Editor-in-Chief in Warsaw (*Institute of Physical Chemistry, Polish Academy of Sciences, ul. Kasprzaka 44/52, 01-224 Warszawa, Poland*). Manuscripts should be typewritten (or reproduced on a high-quality printer) double spaced, preferably on A4 paper, on one side only. All pages of the manuscript should be numbered consecutively, including references and notes, figure captions, and tables, which should be grouped in the sequence following the text. The original manuscript should include the original graphs, drawings of apparatus, and structural formulas; these should be placed at the end, but Authors should indicate in the typescript where they are to be inserted. All figures submitted, including chemical schemes, must be of a high standard for direct reproduction after about 50% reduction of size. Submission of contributions in a machine readable form manuscript, prepared using word processors and graphic software is encouraged.

The presently preferred way of avoiding problems is as follows: Do not send a floppy disk for reviewing. Please, submit a printout, but the final floppy-disk form submit after all necessary changes are made. Floppy-disks (any format IBM PC compatible) will be returned to Authors.

One e-mail address can be added after the mailing addresses of the authors, with the indication to whom it concerns.

Potential authors of Review Articles should contact the Editors before preparation of the manuscript.

3. Reprints

25 reprints are provided free for every published submission. Additional reprints may be ordered, being paid by the authors. Such an order should be submitted not later than within the return of the galley proofs to the Editors.

*Complete instruction appeared in the January issue and can be found on Journal's Home Page <http://malina.ichf.edu.pl/pjch>
